Read all instructions before starting. Seam allowance is a scant 1/4".

Step 1: Sew blocks and R triangles into rows as pictured below. You will line up the bottom of your triangle with the bottom of your block. You will have the point of your triangle go beyond the top of your block. You will need this extra bit of fabric to square up your quilt top.

Step 2: Sew rows together. The best way to do this is to pin at each block intersection so that everything matches up nicely. I like to pin from the center out. Press rows as you sew them together. **Do not trim off your triangle points!**

Step 3: Sew T triangles to each corner. Press. If you have any points that stick out, now is the time to square up your corners.

Step 4: Baste, quilt and bind with your preferred method.
