

Pin-Tucked Pinwheel Blocks

Makes (2) 12" Finished Blocks

Use a total of 9 different prints for a scrappy look!

Cut -- (8) 7 1/2" squares: 4 light and 4 dark prints. Cut in half corner to corner. (Use 8 different prints for a scrappy look!)

Cut -- (8) 2 1/2" contrasting squares for center diamond. On the wrong side, draw line corner to corner (sewing line)

Sew together: 1 dark and 1 light print, right sides together, to form a half square triangle (HST).

Trim HST to 6 1/2 ".

Lay out HST blocks to form a pinwheel. (This is so you know which corner to add the dog ears.)

Place 2 1/2" square on top corner of each HST as in diagram D. Sew on drawn line. Trim seam allowance to 1/4" and press toward dog ear.

Sew 4 completed blocks together with dog ear corners meeting in the middle.

.....

(9) fat quarters = 8 blocks

(9) 1/4 yard cuts = 10 blocks
